

INTERRUPTED LIVES

Catholic Sisters Under European Communism

Interrupted Lives Documentary Film and Discussion October 25-26, 2009

Thank you everyone! From the nearly 300 people who came to watch ***Interrupted Lives: Catholic Sisters Under European Communism*** last weekend, we heard many comments about how profound, touching, heart-wrenching and inspiring the film and panel discussion following were for them. Thank you for helping get the word out and encouraging people to come see your history. We were honored to share an evening together with the Sisters who researched and created the documentary, as well as Sr. Anne Lehner who escaped from Hungary and communist oppression to become such a pivotal leader and social justice advocate in the Community. Best wishes and thank you again for all your support--- The Development Team
